- Organized

## SKILLS

- NextJS
- Typescript
- TailwindCSS
- React
- Python
- Go
- Rust
- SQL
- Java
- C#
- FileMaker
- SharePoint

## WORK HISTORY

### IT Intern at Manhattan Fire Department (2023 - Present)

- Led technology projects and initiatives to enhance department operations.
- Developed and maintained FileMaker Pro databases, including a custom email client leveraging Microsoft email APIs for inbox and sent item management.
- Designed and deployed Next.js websites to streamline property maintenance inspections and integrate FileMaker Pro data.
- Built an internal clothing store website, enabling administrators to manage inventory, process orders, and oversee user accounts.
- Spearheaded the migration to a new incident reporting service by parsing legacy data, generating reports, scripting for data uniformity, and coordinating with the transfer team for a seamless transition.
- Rebuilt the department's communication system in SharePoint, improving accessibility and efficiency.

## EDUCATION

Graduated May 2024

- Manhattan Highschool, Manhattan KS, 66503

Graduates May 2028

- Kansas State University, Manhattan KS, 66503
